

PUBLIC NOTICE FOR COVID-19 VACCINATION

SIUT philosophy of “Free care for all with dignity” lead to the care of patients with Covid-19 infection. We were one of the first institutions to start free testing for general public and our patients.

SIUT started its Covid-19 Vaccination Program for health care workers and now for the general public over 60 years of age.

We highly appreciate the overwhelming response of our friends and well-wishers who have trust in SIUT. Our efforts have been highly appreciated resulting in our facilities being overburdened. Kindly visit SIUT when you have received a confirmed date and registered code for over 70 persons.

To facilitate and serve you better you are requested to call our helpline **021-99216994**.

Vaccination center timings : Monday - Saturday 9 am - 3 pm

Closed on : Sundays and Public Holidays
